

FOOD WITH WINE

Our wine list can be used as a guide to choosing wine which we think complements the food we serve. The wines are grouped into food styles with which they are most ideally suited, however some wines are also suited to a number of different food styles and these are represented by the bold figures underneath the description.

For example a wine in the fish category marked with a **3** is also suitable for chicken, veal and pork.

Our commitment to you is to offer outstanding value for money throughout our list.
